

A DIFFERENT VIEW OF YOUR LIFE

GOOD VENTILATION AND
SAFETY FEATURES
ARE THE HALLMARK OF
WINDOWS AND DOORS

MANUFACTURED TO PERFECTION.

Casa Windows is a specialized product from Lancet Glass—LG TUFF family. Casa Windows is fabricated from Indo-German uPVC profiles technology. The top quality breakthrough product would be tailor made and is designed to exceed customer expectations. Top end manufacturing standards through rigid quality control processes sets us apart, and gives Casa Windows the competitive edge. Casa Windows will always strive to be customer centric and customer focused, and believes in quality as its culture.

"Customer satisfaction is where we begin."

WHY CHOOSE CASA WINDOWS

Sound Insulation

Our IGU systems keeps your space calm and quiet. We create perfect sound insulation even when the decibels are high.

Saves Energy

The windows and doors in your home/office blends in perfectly and keeps your space eco-friendly and saves energy

Storm Resistant

The installation, profile wall thickness, GI profiles are all calculated to resist high impacts and wind loads.

Prevent Dust Buildup

Design your space to match the environment outside and keep it neat and tidy, no matter how dusty it is outside.

Elegant Looks

The rich texture and the variety of styles offered enhance the beauty of your place and compliment the style you choose.

Low Maintenance

They do not rot, corrode or warp,
They are completely termite-proof,
They don't require frequent polishing or painting

There are several special features that define uPVC, meaning that their benefits too are significant

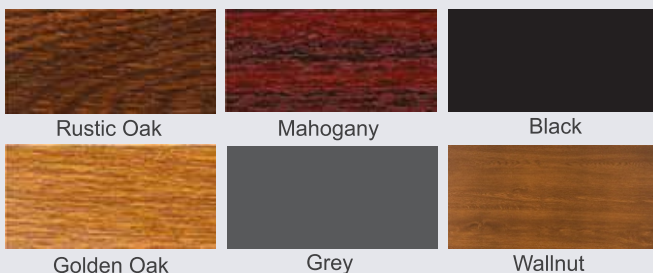

www.casawindows.in

- OFFERS RAIN INSULATION

Wood finishing for your doors and windows can make your space beautiful but adding wood to window and door panes is impractical and expensive. Lamination can be an efficient solution that creates the same effect as wood finishing. Go ahead, make your doors and windows look neat, beautiful while easy-to-maintain.

Laminations Available in

PRODUCT RANGE

CASEMENT SERIES

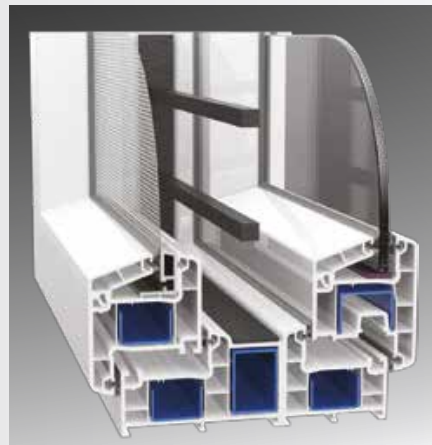

Casement windows open outwards or inwards, and close tightly. Thanks to this, they offer excellent thermal insulation. They are capable of holding glasses of a range of thickness, to give you all the flexibility you need. Casement Series is designed for Casement Doors, Casement Windows and Casement Windows with Grill and Mesh with options of single and double glazing ranging from 5 mm to 24 mm. The system comes with co-extruded glassing beads for better finishing and easy installation.

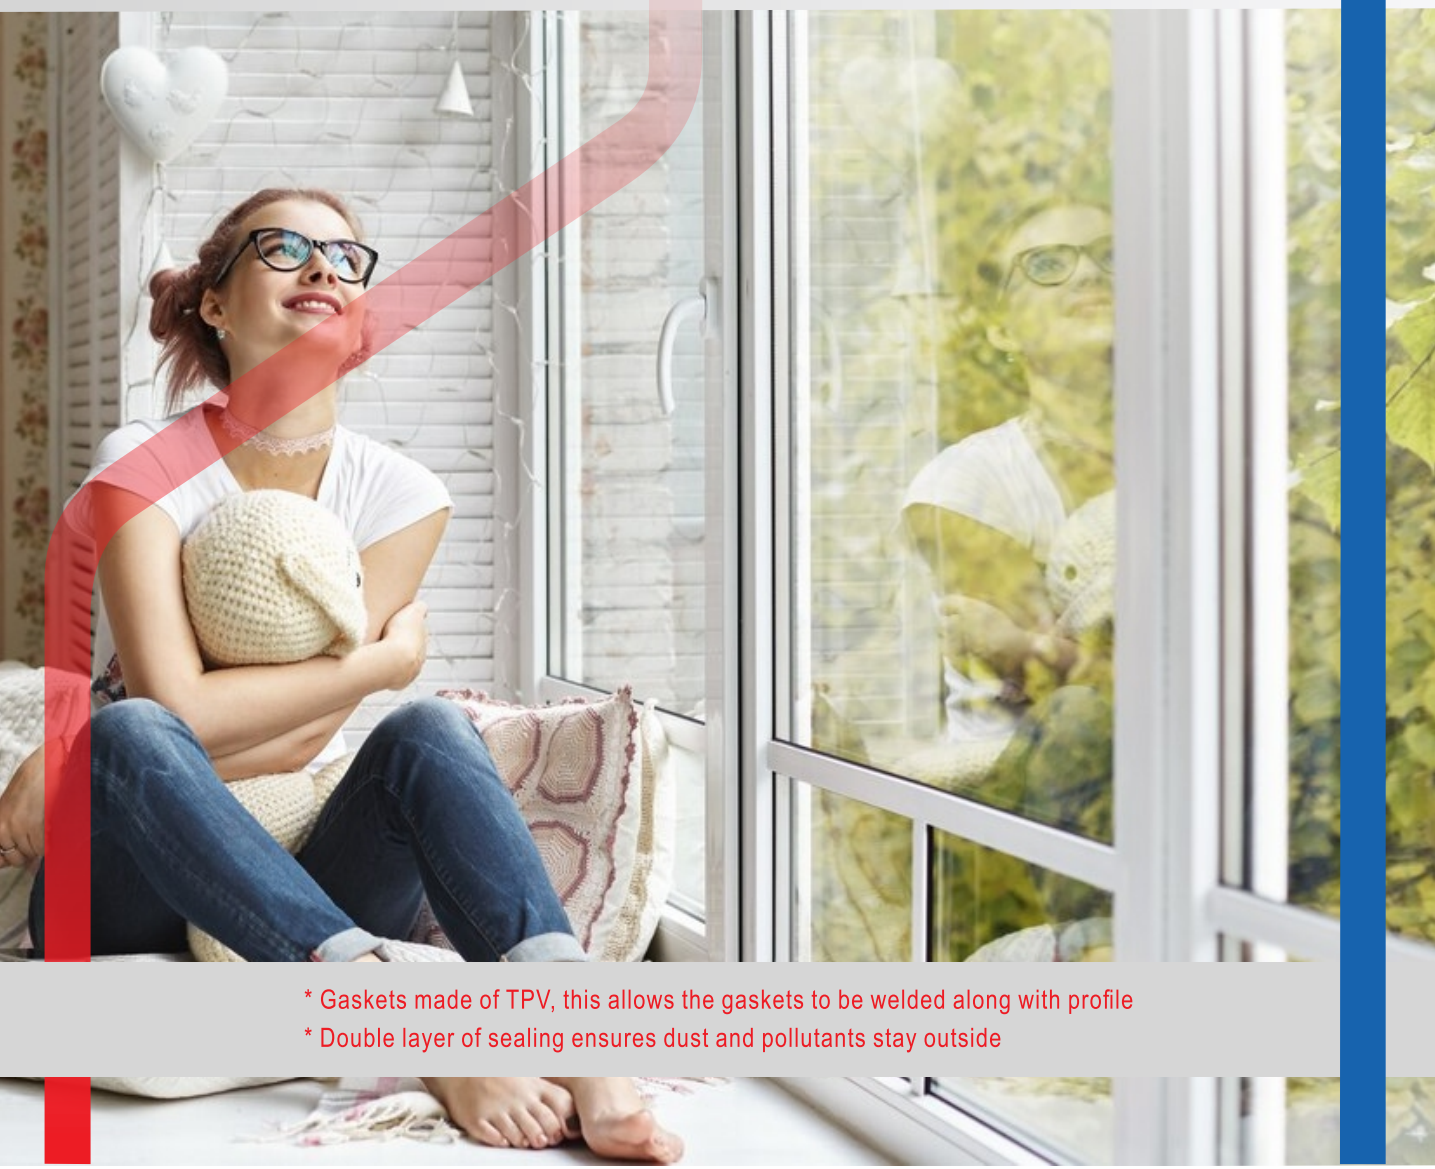

Casement Window

Casement Door

Casement Window with Grill & Mesh

- * Gaskets made of TPV, this allows the gaskets to be welded along with profile
- * Double layer of sealing ensures dust and pollutants stay outside

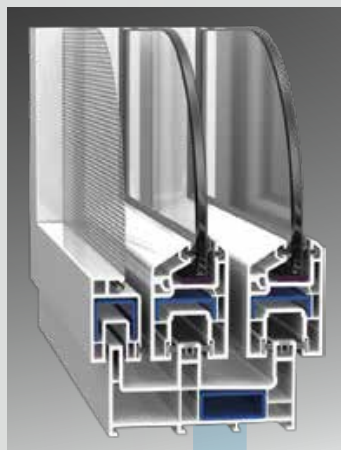

PRODUCT RANGE

SLIDING SERIES

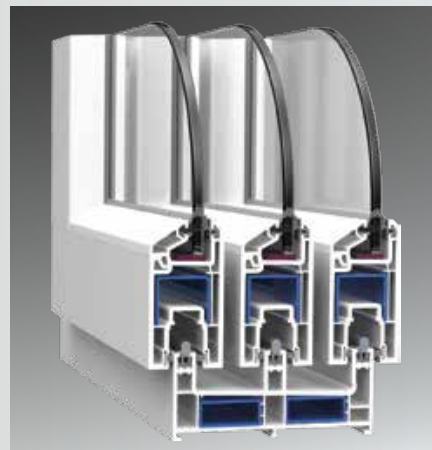

Sliding Series are designed for Sliding Doors and Sliding Windows. The wide range provides flexibility to fabricators and end users. They are available in 2-Track, 2-Track with fly-screen, 3-Track etc., to suit specific customer requirements with options of single glazing and double glazing ranging from 5 mm to 20 mm.

2 Track 2 Panel

2.5 Track 2 Panel with Screen

3 Track 3 Panel
